### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mescher on September 13, 2004.

The application has been amended as follows: On page 13, line 3 (the second line of the Abstract), "means of" is deleted.

The following is an examiner's statement of reasons for allowance: Ecker et al (723) and Cross et al (658) do not teach both rectangular base bodies and the frame plates. Kruger et al (142) does not teach the claimed grooves between neighboring hinge members or openings therethrough for the hinge axes. Sullivan does not teach rectangular base bodies which accommodate both ends of a frame plate, a partition plate between the ends of the frame plate, and hinge members on the frame plate. There is no suggestion in the prior art of record for combining the references to arrive at the claimed subject matter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
